

Dear Prem Das

26th. of

Jan 79

Jai Sita Ram

I read your paper.

Its good that you are working in Electronic Research 5 days a week.

I am happy to learn that you have invented "Air Energizer". America needs such thing because in the cities there is so much air pollution. you can sell it for lots of money. If it works well then it will be a good aid to Hospitals - old peoples homes - Town people - factories etc.

I meet- people on Tuesdays at 207 Leonard St. Thursdays and Sat. day I go to Mt. Madonna Center. Sundays Sat-rang. On Monday - wed-day + Friday I do my own writings.

It will be better if you come to 207 Leonard St. ^{or} on Tuesdays at 10 AM.
